

## **ROLE: Business Management SIMA Graduate**

### **COMPANY: SIMA**

We are seeking a graduate with a passion for business planning and analysis to become our Business Planning Analyst involved in producing, interpreting and reporting on data covering everything from inventory and pricing to orders and sales performance.

The results will define our marketing, pricing and buying strategies as well as supporting market forecasts. Make data the inspiration for how we market many of our highest-profile and most profitable products!

Throughout this 13-month graduate scheme, you will be given the opportunity to not only expand your knowledge in business planning and immerse yourself in what it means to be a professional but also to gain an exciting insight into SIMA's marketing department and to see where your career could take you.

Working within an established team, you will be offered expert mentorship alongside multiple development opportunities.

#### **Your profile**

- Excellent communicator with the ability to work within a multidisciplinary team.
- Working knowledge of data manipulation tools (e.g., Python, Power BI).
- Strong analytical skills and ability to deal with large sets of data.
- Enthusiastic and proactive attitude to working on constantly evolving projects and ad hoc duties.
- Self-motivated, organised and inquisitive individual who is not afraid to challenge.
- Proficiency in MS Office (Excel, Word, PowerPoint, SharePoint).

#### **Life at SIMA**

We will make you a part of a large and diverse graduate student network which will allow you to foster friendships and to build lifelong connections with like-minded students.

We are passionate about your personal development and to help you get the most out of your graduate scheme, there will be a number of Training Modules and a range of Learning & Development programs available to help you learn, grow and lay the building blocks for your career.

#### **We are SIMA Europe**

Our people collaborate in an environment of acceptance, integrity and open-mindedness. Diverse teams from all over Europe are the driving force for our business, and we embrace that each and every one of us is original and unique.

Operating in 28 European countries, SIMA Europe provides both Consumer & Professional products, as well as Semiconductor, Imaging & Sensing, Healthcare and Biotech solutions. We also have leading R&D Centres and Laboratories developing new technologies and capabilities for SIMA Group interests.
